

Seal Bond[®] 105 - High Strength Adhesive/Sealant

- Fast skin time and high viscosity
- Moisture cure technology, adheres in damp conditions
- Extremely high tensile, shear and tear strength
- Zero solvents, low VOC's
- 100% Solids, will not shrink and remains flexible

IDEAL FOR

- Difficult bonding
- Product assembly
- Multi-purpose applications

Seal Bond[®] 150 HV - High Viscosity Sealant

- High Green Strength - Fast Skin Time
- Zero solvents, low VOC's, moisture curing
- No outgassing or bubbling, even in damp conditions
- 100% Solids, will not shrink and remains flexible

IDEAL FOR

- Product assembly
- Quick fixturing
- High strength bonding

Seal Bond[®] 114 - High Performance Adhesive/Sealant

- Enhanced adhesion to challenging substrates
- Environmentally friendly - free of isocyanate and solvents
- Superior interior and exterior performance
- Ideal working time for assembly applications
- 100% Solids, will not shrink and remains flexible

IDEAL FOR

- Trailer roofs and sidewalls
- Composite panel manufacturing
- Overpaint applications
- General bonding

Seal Bond[®] 132 - Sprayable Seam Sealer

- Multiple colors available
- Easily tooled after application
- High Shore A Hardness
- Permanent bond to most common metals and plastics
- 100% Solids, will not shrink and remains flexible

IDEAL FOR

- Flat and wide stream beads
- Seam sealing
- Protective coating

Seal Bond[®] 400 - Universal Sealant

- Broad substrate compatibility with good all around adhesion
- Long open time
- Excellent tool-ability
- 100% Solids, will not shrink and remains flexible

IDEAL FOR

- Penetration sealing
- Seam sealing
- Multi-purpose applications

Seal Bond[®] 190 - Liquid Flashing

- Fast Skin Time - low dirt pickup
- Semi-self leveling properties for roof penetrations
- Permanent bond to most common metals and plastics
- 100% Solids, will not shrink and remains flexible

IDEAL FOR

- RV and Trailer repair
- Roofline sealant

Seal Bond[®] 134 - Color Matched Sealant

- Broad color range available
- Fast Skin Time - low dirt pickup
- Permanent bond to most common metals and plastics
- 100% Solids, will not shrink and remains flexible

IDEAL FOR

- Interior panel sealants
- Decorative finishing
- Pick-resistant Seams

Seal Bond[®] 115 - Non-Skinning Butyl

- Non-skinning, non-hardening, permanently flexible
- Gun grade, non-sag formulation
- Eliminated air and moisture infiltration
- Compatibility with multiple industrial substrates

IDEAL FOR

- Curtain walls
- Bedding sealant
- Acoustic sealant

Seal Bond[®] 404 - RTV Acetoxy Silicone

- Industrial grade acetoxy silicone
- Resistant to weathering, UV, moisture, and vibration exposure
- Gun grade, single component
- FDA compliant for incidental/potable water contact

IDEAL FOR

- Truck, trailer and RV
- Water tanks
- Form-in-place gaskets

Seal Bond[®] 405 - RTV Neutral Cure Silicone

- Non-corrosive and low odor
- Excellent movement and flexibility
- All weather service performance
- VOC Compliant
- Superior UV Stability

IDEAL FOR

- Lamp bonding
- Appliance assembly
- General purpose
- Glazing
