

Seal Bond® Access Flooring Sealants & Adhesives

Seal Bond is the leading manufacturer of high performance adhesives, sealants and coatings for installing Access Floor Systems. With 25 years of experience, you can be confident that by choosing Seal Bond, you're choosing the best.

1 CONCRETE SEALERS

High quality installations begin with proper sealing and treatment of the concrete sub-floor. Our products are selected for superior performance and environmental friendliness.

- Dust reduction
- Substrate fortification
- Chemical hardening
- Moisture protection

2 PEDESTAL ADHESIVES

The performance and properties of a pedestal adhesive are key drivers of successful installations and lifetime performance of the access floor system. Each of our products meet environmental standards.

- Class A Fire Rating
- Low VOC Content
- Exceed CISCA Strength Tests
- May contribute to LEED material resource credits

3 PLENUM SEALANTS

Air plenum performance requires adequate treatment of all joints to ensure air flow and system pressure. Seal Bond products are ideal for sealing large gaps and minimizing odors.

- Low odor
- Up to 1/2" joint coverage
- Moisture curing

Raised Access Floor Products

Elevate your Access Floor Installations and project performance by selecting the best products for your application.

CONCRETE SEALERS

MA - 200

High-build color epoxy coat for impact and chemical resistance.

- Impact Resistant
- Low VOC
- Multiple colors available
- Moderate chemical resistance

MA - 260

Water based acrylic sealer for water blushing resistance.

- Fast set time
- Excellent stain resistance
- Low odor
- 0.5 - 1.0 mils dry thickness
- Clear gloss finish

MA - 279

Water based lithium-silicate penetrating sealer for dust reduction.

- Wear & tear protection
- Moisture protection
- Air permeable
- Invisible finish

PEDESTAL ADHESIVES

Seal Bond® 95

High strength pedestal adhesive for maximum performance.

- Full cure in 14 days, optimal cure 21 days
- Maximum bond strength
- Meets seismic rating requirements
- Exceeds CDPH emission standard

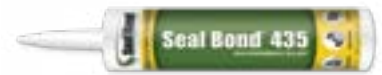

Seal Bond® Envirotec 105

High value pedestal adhesive for adequate performance.

- Freeze-thaw stable
- Anti-microbial
- VOC Compliant
- Easy application & clean-up
- Solvent free

PLENUM SEALANT

Seal Bond® 435

Gun grade, non-sag, moisture curing sealant for air flow efficiency.

- Up to 1/2" gap coverage
- Solvent & isocyanate free
- Paint compatible
- Multiple colors available
